Hi gang-

Fun stuff, to be back in choir! Nicely done

We've got a rehearsal CD prepared for you out on the cabinets. Make sure you pick one up before you head out. THE SONGS FOR THE CD WILL BE FROM TRACKS 1-12. There is a chance that we record only 11, maybe only 10. I will let you know where we end up as we progress. Most of the songs on today's rehearsal guide will be on the recording. The idea is that we prepare them for worship in July/Aug and then they're ready to go for a recording in September. Most of the songs that will be featured will be songs that we KNOW minister and WORK. I think this will make for a great sounding project that folks will really enjoy listening to. When you record you really do expand the breadth of your ministry, and these non-seasonal songs will continue to minister long after we've forgotten about them.

CHILDRENS CHOIR THANKS! Angela, AJ and the kids are in Tennessee this week with her parents, but I wanted to say thank you to all of you folks who gave of yourselves for our kids last week during "Under God's Sea in 3d." It was a blast, and you came through with a wonderful presentation. These things don't happen by accident; Angela provided great leadership and you guys ran with it. KUDOS! I'm thankful to be a part of a church that puts a priority on our kids and their creative side given by our Heavenly Father.

In the immortal words of the chili pitchman...
How long has it been since you invited somebody to come with you to choir? Well—that's too long.
